REPORT of the SUPERINTENDENT of SCHOOLS

To the School Board and Citizens of
Rollinsford:

In this my first report to you, I wish to echo the words of my predecessor and say "Rollinsford has a good school". It is out of the ordinary for any school to retain its entire teaching staff for more than one year. The feat was accomplished in your school this year with very favorable results. The teachers have been able to begin productive work from the very first school day. There has not been the usual confusion and delay between teachers or between teacher and pupil that results whenever someone new takes over a teaching assignment. Some change is good, but in the past few years we have had too many changes which are not all good.

The salary schedule for teachers which was adopted last year is a prime factor in the retention of the staff. I firmly believe that you must keep within range of surrounding towns as to teacher salaries in order that we remain in a competitive position as to teacher recruitment and/or retention.

The curriculum at the school is basically fundamentals, reading, writing, and arithmetic. A thorough grounding in the area of basic fundamentals is the only basis upon which a student can build towards later achievements in any field. We have expanded the program in the area of science in order that the youngsters become acquainted with the basic elementary concepts in this area.

Transportation this year has been a difficult item to handle with the present equipment, two forty-eight passenger buses. It will be necessary to add a third vehicle to care for increasing numbers. I have therefore, recommended the addition of a sixty passenger bus which should be sufficient for a few more years unless extensive home building takes place.

The possibility of school expansion has occupied the School Board, your Superintendent, and Principal during the last few months. We have explored the area of enrollment projection, possible home building developments, and types of school expansion. An exploratory meeting with the architect who designed the original building was held last fall. I want to emphasize that no definite plan is being considered at this time. All thinking up to this point is purely academic in the eventuality that we might have to add to the present school building. The School Board is to be commended for their foresightedness in this action.

The School Budget this year has increased as it must with increased costs and increased enrollments. The major increases are in salaries, transportation, and tuition costs. Salaries and transportation were dealt with previously in this report. Tuition costs increases are due to higher tuition rates and a larger number of children going on into high school.

The following reports and statistics will further explain the major areas in our

school.

I wish to close this report with an expression of appreciation to the School Board for their cooperation and help. I also want to commend your very able Principal, Mr. Hatfield, and the teachers for their help and assistance.

Respectfully submitted,

ROBERT L. BRUNELLE
Superintendent

ROLLINSFORD GRADE SCHOOL
Report of Principal

To: The Superintendent of Schools
The Rollinsford School Board
The Citizens of the Town of Rollins-
ford, N. H.

It is with pleasure that I am at this time able to submit a report that in part covers some of the activities of the Rollinsford Grade School during the year 1958-59.

ENROLLMENT

The activities of the Rollinsford Grade School began this year on September 2, 1958 with an enrollment of two hundred and eight pupils. Since the beginning of the school year we have had a small but steady increase in the enrollment until at the present time it now stands at two hundred and fifteen pupils. The follow-

ing is the Table showing the enrollment and the distribution of the pupils throughout the various grades:

INSTRUCTION

The Rollinsford Grade School adheres to the following Statements of basic beliefs:

1. Educational opportunity should be provided for all children and youth and for adults to the full extent of their abilities and aptitudes through a program which recognizes and provides for individual differences.

2. Teaching is a profession requiring

special preparation in subject matter, teaching methods, and knowledge of how children grow and learn.

3. The curriculum of a school cannot be static; it must be responsive to changing local, state, and national needs.

4. Our aims are to:

1. Foster intellectual growth as a primary objective.
2. Teach the basic skills thoroughly.
3. Provide a balanced educational program in terms of the abilities and aptitudes of all learners.
4. Develop the attitudes, habits, values, appreciations, and understandings essential for a well adjusted person and a contributing member of our society.
5. Recognize and develop the special talents and meet the special needs of all pupils.
6. Develop the ability to make rational judgments based on accurate and complete information.
7. Contribute to physical and mental health.
8. Help pupils grow morally and spiritually.
9. Contribute to the social and aesthetic development of pupils.
10. Help pupils develop increasing ability to exercise self-discipline as individuals and in groups.

11. Develop a respect for work and for skill in performance, and the ability to carry tasks through to completion.

12. Stimulate an attitude for continued learning throughout life.

Our school presents a program of organized experiences for all children between the ages of 6 and 14. Common learnings in grades 1-6 include the elementary skills, knowledges, and understanding of:

The Language Arts -- reading, literature, listening, oral and written language, handwriting and spelling.

Quantitative subjects -- arithmetic and elementary mathematics.

The Social Studies -- geography, history, citizenship, and related fields.

Sciences -- elementary physical and biological sciences.

The Arts -- Art, music, drama, and dance.

Physical well-being -- health, physical education, and recreation.

Equally important is the elementary school's effort to help children develop healthy personalities. As subject matter is mastered, the elementary school child learns to work and study, recognizing standards of skilled workmanship; to live safely; to contribute to his group; to cooperate with others; to assume responsibility; to accept leadership.

Such traits as honesty, reliability, fair play, sensitivity to others, self-control are developed through day to day activities.

FACULTY

The faculty of the Rollinsford Grade School has undergone no change from the preceeding year.

Reference to the Faculty Data Table will bring out the facts pertinent to each member of the group.

SCHOOL LUNCH PROGRAM

The lunch program of the school is under the capable guidance of Mrs. Barbara Wilson who serves as both dietician and cook. She is assisted in her cooking and serving duties by Mr. Willis Lane.

The lunches that are served are both tasty and wholesome. They are well received by the pupils of the school. The cost per meal for the pupils is twenty-five cents.

A typical lunch for each day of the school year is as follows:

- (1) A hot dish, consisting of one of each of the following:
 - (a) Beef, Pork, Lamb, Chicken, Turkey, Fish
 - (b) Potato, Rice, Noodles, Macaroni, Spaghetti
 - (c) Vegetables, according to the season, both fresh and canned
- (2) A sandwich of some variety
- (3) A dessert of some variety - cake, pie, cookies, ice-cream, fruits, etc.
- (4) A bottle of pasteurized milk.

The following is a summary of the school lunch program:

ACKNOWLEDGMENTS

I wish to take this opportunity to express the thanks of the Rollinsford Grade School as a whole to the various members of the upper classes Grades 6-7-8 for the past three years who have sold magazine subscriptions for the benefit of the school. These boys and girls have put on a very active selling campaign with the result that this year we have been able to purchase and put into operation two new pieces of equipment.

The first piece was a Bausch and Lomb Vision tester. Price \$225.00.

The second piece was a Maico Audiometer or hearing tester. Price \$343.00.

Both of these pieces of equipment are extremely useful in locating physical defects that hamper the learning activities of the pupils. The equipment is being used in all grades from one to eight.

I wish to express the thanks of the school to the Martel-Roberge Post American Legion for its continued interest in the intellectual attainments of the students as well as in the physical well-being of these same students.

CONCLUSION

In conclusion, let me offer the thanks and appreciation of the faculty and staff of the Rollinsford Grade School, to the Superintendent, the members of the Board of Education, and the Citizens of the Town of Rollinsford for their help and understanding in making this school the kind of school that serves a community well.
